

City of Leander

**REQUEST FOR PROPOSAL
BEHAVIORAL WATER EFFICIENCY SOFTWARE
QUESTIONS AND ANSWERS**

RFP No. S16-018

Q&A No. 1

Date of Addendum: February 29, 2016

Please note the clarification and/or additional information for the solicitation referenced above.

- 1. Q: Do we need to respond or provide description to each requirement provided in “Part III Specifications” in another separate appendix (considering the page limit) other than the questions in the response format provided in Part IV of the RFP document?**

A: Respondents will be scored on the content provided as requested in PART IV of the RFP document. The content shall address, however, the City’s needs as specified in the whole RFP.
- 2. Q: Please provide some brief about the backend system of the City of Leander?**

A: The City of Leander utilizes Incode Financial System for water billing record keeping. The City currently utilizes two water meter systems; Neptune and Zenner.
